SUMMARY

Enthusiastic and results-driven Front End Web Developer with a solid educational foundation in Computer Science. Possesses over 1 year of hands-on experience in crafting and maintaining seamless user interfaces, ensuring optimal web performance, and implementing responsive designs. Proficient in HTML, CSS, and JavaScript programming languages, with a keen eye for design aesthetics and user experience. Experienced in collaborating on dynamic web projects and dedicated to staying updated with the latest front-end development trends. Committed to delivering visually appealing and user-friendly websites that contribute to the success of dynamic, client-focused environments.

ACADEMIC PROFILE

Institution	Degree	Year
Lambton College	PG Certification in Full Stack Software Development	2025
Punjab University	B.SC in Computer Science	2021

PROFESSIONAL EXPERINECE

Newfold Digital | Web Solutions Specialist June 2022- Aug, 2023

- Utilized advanced skills in HTML, CSS, and JavaScript to create visually stunning and responsive user interfaces for dynamic web solutions.
- Implemented robust web security practices, ensuring data integrity and user confidentiality. Led the design of secure authentication mechanisms to comply with industry standards.
- Executed efficient management of MySQL databases for dynamic websites, focusing on web asset security and proactively mitigating vulnerabilities such as SQL injection.
- Orchestrated end-to-end hosting processes, optimizing server performance for both Linux and Windows environments to enhance website responsiveness and user experience.

Grroom (AI Fashion application) (Internship) Nov,2020- Dec, 2020

- Developed, tested, and maintained optimal front-end architecture, focusing on creating visually appealing and responsive user interfaces for enhanced user experiences.
- Spearheaded the identification, design, and implementation of process improvements, with a keen eye on enhancing website scalability and automating manual workflows.
- Managed the seamless functionality of front-end databases and applications, ensuring smooth operations for various web projects.
- Conducted front-end data analysis and sourced relevant data to support data-driven decision.

SKILLS AND EXPERTISE

Programming Languages: Python, SQL, Java, c#

Web Technologies: React, Angular, HTML, CSS, Java script.

Databases: MongoDB, NoSQL, Microsoft SQL Servers

LEADERSHIP AND INVOLVEMENT

National Cadet Corps | Senior Cadet Caption 2018-2021

- Spearheaded the organization of the farewell ceremony for the graduating class of 2020, ensuring a memorable and meaningful event.
- Orchestrated the planning and execution of multiple college programs and activities, including diverse cultural events, sports competitions, and an introductory week for freshmen.
- Crafted and curated engaging content for publication on both print and online media platforms, contributing to effective communication and representation of NCC initiatives.
- Co-led a dynamic team of 30 cadets in planning and executing the Republic Day Parade. This significant event aimed at showcasing the patriotic spirit and discipline of the NCC cadets, fostering unity and pride in the national celebration.
